

Central Coast GIS User Group

6/10/2009

Minutes

Attendance: Eli, Farhad, Neal, Sandy

Presentation:

Neal and Farhad gave an overview of CLPUD's GPS use for field work and integration with GIS data. They then covered some examples, giving a detailed look. For their current project, they are using a Trimble Geo XH with TerraSync. In the office, they are using GPS PathFinder Office and ArcMap.

The next meeting is Wednesday, August 12th.
