

Central Coast GIS User Group

8/12/2009

Minutes

Attendance: Brady, Eli, Jim, Khem, Neal, Sandy, Scott, Tanya, Suzanne, Ron

Current projects include: Writing, vacation, taxlots, sts, biosolids, GPS, and other.

Map Critiques: This was the main attraction for the meeting. We had plenty of time for in depth map reviews. We had even more great maps. There were 5 very different takes on thematic maps for water utilities from throughout the country and locally. There was a language map with the BlueMarble background. There was also a map about current and historical land ownership. There were various other maps including a map on a bottle to get to a restaurant, road jurisdiction transfers, address change notice map, and others. The full meeting map critique may become a regular event.

Business:

The October 14th Meeting conflicts with the NW GIS User Group. The CCGISUG meeting will be moved back a week to October 21st in Lincoln City. December 9th meeting is still available for sign up. Contact Andra for Geography week. Things will be different with the School District changing configuration.

The next meeting is Wednesday, October 21st in Lincoln City. Sandy volunteered to host and moderate a discussion on data quality, time deadlines, and other issues relevant to GIS.
