

Central Coast GIS User Group

5/12/2010

Minutes

Attendance: Brady, Eli, Khem, Lee, Neal, Pat, Scott, Stacy

Current projects include: Yaquina topo/bathy lidar reinterpolation, SLAM, GPS verification, River flood modeling, working in new geographic areas, migration from vb to .net, shellfish distribution, data updates, web mapping, taxlot mapping, clear cut monitoring, other. Map Comparison Kit and cat scanning cores were discussed as well. There is new bathy in the Tillamook area and perhaps some 4-band imagery as well.

Business: Next meeting is July 28th. Central Lincoln will be hosting, the presentation will be Pat's ESRI UC presentation on techniques for bathy and vegetation in 3 estuaries. The new website is <http://www.orurisa.org/ccgisug> It could use a map of our region. Let Khem know what you want on there, currently it is mostly minutes and agendas and makes it easier for new GIS folks to find us!

Presentation: Lee presented the results of a 2002/2008 Upo and Neo shrimp distribution and density study. He also covered details of overcoming different field sampling techniques and result verification.

Map Critiques:

Brady brought a map for review. The postscript print driver limitations were discussed.

Next meeting is July 28th. Central Lincoln will be hosting, the presentation will be Pat on techniques for bathy and vegetation in 3 estuaries. See you there!
