

Curious about or planning to pursue the GISP credential?

Don't pass up the opportunity to attend a full-day *Preparing for GISP Certification* workshop being presented in conjunction with the GIS/CAMA Technologies Conference in Portland on Monday, February 25.

When: 8:30AM to 5:00PM on Monday, February 25, 2019 (with a break for lunch on your own)

Where: Portland Marriott Downtown Waterfront (1401 SW Naito Pkwy, Portland, OR 97201)

Earning the GISP credential requires successfully completing an exam as well as a number of other application requirements. The first part of the workshop will explore the reasons that the GISP credential is worth pursuing as well as what is involved in completing each part of the application. Then, we will explore the topics that you need to be familiar with for each of the knowledge areas covered by the GISP exam. Information presented in this workshop is designed to help professionals who have extensive GIS education and experience, but need to know what topics to review prior to taking the exam. It also will help individuals with some GIS experience that may be lacking in one or more areas covered by the exam and that need to know where to find additional resources to study.

Cost: \$125. One full-day or half-day workshop is included with full conference registration; the normal price if only attending a workshop is \$195. The URISA Vanguard Cabinet and Oregon URISA Emerging Professionals have organized a \$70 savings to individuals who wish to attend the GISP workshop.

To Register: Proceed to online registration for the GIS/CAMA conference on the URISA website (<https://bit.ly/2RkkRNY>). Select the workshop-only registration type and the GISP workshop. **Enter this in the discount code field: CAMA Workshop-GISP**

Bonus: After the workshop, you are invited to attend a networking reception in the GIS/CAMA Exhibit Hall for refreshments and the opportunity to connect with approximately 30 GIS product and service providers.

Vanguard & Emerging Professionals Meet-Up: Following the networking reception, head to the Marriott hotel lobby bar to connect informally with local colleagues!
